virotype PCV2/PCV3 Primers/Probes	(96) PR283685	(480) PR285687
Cat. no.	96	480
Number of reactions		
PCV2/PCV3 Primers/Probes	1 x 210 µl	5 x 210 µl

Intended use

The virotype PCV2/PCV3 Primers/Probes contains primers and probes for amplification of DNA from Porcine Circovirus 2 and Porcine Circovirus 3 in multiplex real-time PCR.

For research use only. This product is not intended for the diagnosis, prevention or treatment of a disease.

Preparation of PCR setup

Before use, thaw the reagent protected from light and spin down briefly.

It is recommended to use 2 µl of the virotype PCV2/PCV3 Primers/Probes per 25 µl PCR reaction.

Filter settings

Target	Reporter
PCV2 DNA	FAM™
PCV3 DNA	Cy®5

Quality control

Each lot of this product was manufactured and released in accordance with INDICAL's ISO-certified Quality Management System.

Storage and handling

Upon receipt, store the material at -30°C to -15°C , away from any sources of contaminating DNA or RNA, especially amplified DNA products and material used for PCR master mixes. Protect from light during storage and handling. Use aerosol barrier pipet tips for pipetting. Do not use after the expiration date printed on the label. Avoid repeated thawing and freezing because this may reduce performance. If used intermittently, aliquot the material and freeze.

Safety information

When working with chemicals, always wear a suitable lab coat, disposable gloves and protective goggles.

For more information, please consult the appropriate safety data sheets (SDSs). These are available from your regional sales manager or at compliance@indical.com.

All sample residues and objects that have come into contact with samples must be decontaminated or disposed of as potentially infectious material.

Warning and precautions

Dispose of all materials in accordance with national and local regulations.
