

virotype IHNV/VHSV RT-PCR Kit

Easing salmonids monitoring and diagnosis through multiplex detection of *Infectious Hematopoietic Necrosis Virus* (IHNV) and *Viral Hemorrhagic Septicemia Virus* (VHSV)

Features and benefits:

- Triplex real-time PCR assay for rapid and highly reliable identification of all known IHNV and VHSV genotypes
- Fast qPCR runtime of ~68 mins
- High sensitivity and specificity
- Ready-to-use PCR mix in an easy-to-use format - no additional pipetting required
- Positive and Negative Controls included
- First and only multiplex IHNV/VHSV RT-PCR Kit approved in Germany by the Friedrich-Loeffler-Institut (FLI-C 133)

Certainty and excellence

INDICAL BIOSCIENCE (INDICAL) has been the trusted supplier of high-quality real-time PCR test systems since 2007. We're continuing to do our part to help control animal diseases and outbreaks. We have a high production capacity and ability to react quickly to changes in demand when required.

Order information

Product	Short description	Cat. no.
virotype IHNV/NHSV RT-PCR Kit [†]	For simultaneous detection and differentiation of RNA from <i>Infectious Hematopoietic Necrosis Virus</i> (IHNV) and <i>Viral Hemorrhagic Septicemia Virus</i> (VHSV)	VT290008 (100)

[†]Product availability/distribution: Outside the U.S. and Canada

Get the best results in downstream testing with the right start. Our proven extraction kits for nucleic acid isolation are suitable for both high- and low-throughput workflows.

Product	Short description	Cat. no.
IndiMag 2 (110-240 V)	User-friendly, versatile benchtop instrument for automated magnetic bead-based nucleic acid isolation of up to 48 samples simultaneously.	IN950048
IndiMag Pathogen Kit w/o plastics	For isolation of viral RNA/DNA and bacterial DNA based on magnetic bead technology. <i>For use with IndiMag 48s, IndiMag 2, KingFisher Flex and equivalent instruments.</i>	SP947257 (384)
IndiMag Pathogen IM48 Cartridge	Prefilled reagent cartridges (32-well blocks) for automated isolation of viral RNA/DNA and bacterial DNA based on magnetic bead technology. <i>Including rod covers. For use with IndiMag 48s and IndiMag 2.</i>	SP947654P608 (6 x 8)
IndiMag Pathogen KF96 Cartridge	Prefilled and sealed reagent cartridges for automated extraction of viral RNA/DNA and bacterial DNA based on magnetic bead technology. <i>For use with KingFisher Flex and equivalent instruments.</i>	SP947855P196 (96)
IndiSpin Pathogen Kit	For isolation of viral RNA/DNA and bacterial DNA based on silica membrane technology.	SP54104 (50) SP54106 (250)
